CERTIFIED MAIL

Mr. John Stiller  
Burlington Environmental, Inc.  
2203 Airport Way South, Suite 400  
Seattle, WA 98134

Dear Mr. Stiller:

Re: Schedule extension request for delayed submittal of background sampling plan for the Pier 91 Facility (WAD000812917).

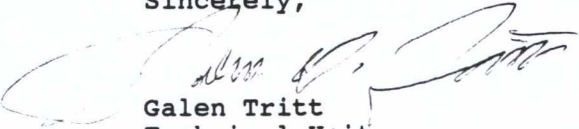

This correspondence is to approve Burlington Environmental's (BE) schedule extension request for delayed submittal of the background sampling plan for the Pier 91 Facility. The BE schedule extension request calls for the plan to be submitted after the completion of the following items:

- o RFI workplan and final RFI report;
- o Pier 90 & 91 RFA; and,
- o resolution of Part B appeals.

The Pier 91 Facility Part B Permit, condition II.D.1., requires BE to submit a background sampling plan to the Washington State Department of Ecology (Ecology) eight (8) weeks prior to the sampling event. The sample collection was to occur as soon as possible after the Part B Permit was issued. I understand the submittal of the background sampling plan will now be received by Ecology within eight (8) weeks after resolution of the above items, and will then be followed by the sampling event.

If you have any questions or comments regarding this matter, please contact me at (206) 649-7280 at Ecology's NW Regional Office.

Sincerely,

  
Galen Tritt
